OAKLAND
COMMUNITY
COLLEGE™
Excellence Empowered.™

Oakland Schools Technical Campuses have partnered with Oakland Community College to combine Early College opportunities with our technical programs. During 11th and 12th grades students take high school requirements, their OSTC program, and college courses aligned toward a technical degree. Students attend Oakland Community College full time during an added 13th year earning their high school diploma and potentially an associate degree.

*There is **NO COST** related to college tuition, books, or labs fees for students in Oakland Technical Early College!*

- Gain a competitive advantage in technical fields with training employers are seeking
- Your degree is focused on the technical program of study in which you are interested
- Advanced education can lead to more opportunities for high skill, high demand, and higher paying careers!

Current early college program options include:

Collision Repair and Refinishing (NE, NW, SE, SW Campuses)
